

Wrap-Around

We Wrap Children & Families with the Love of Jesus Christ

Parenting

What's Wrap-Around?

Wrap-Around service is provided for your benefit; the adoptive parent. The purpose is to encourage, elevate, and equip you to parent the child who has been placed into your care. By the fact that your child is adopted or being adopted means he/she has at least one adverse childhood experience (ACE) indicator and according to research findings, ACEs do not occur alone. If your child has one ACE score, then there is an 87% chance they two have two or more. An ACE score of four or more is considered significant trauma. Our Wrap services is designed with you and your child in mind. Our objective is to help you become a trauma-informed parent, so
(over)

1

ENCOURAGE

The journey is long and winding; but you are not alone and you can do this.

2

ELEVATE

Trauma parenting begins in the trenches, together you will cause your child to rise.

3

EQUIP

From others who have made the journey, there are resources and tools awaiting your hand.

Build Safety

Your child has a need to feel he will not be harmed or judged.

Build Trust

Your child has a need to feel your home and hugs can be trusted.

Build Love

Your child has a need to feel your love through their behaviors.

that in time your skills and strengths as a compassionate parent enable you to lead your child to resiliency. Adoption is about parents joining their child in their despair, and then helping them find the way out into hope and healing.

What Can I Expect?

The process of healing your child includes you and involves you. You are the parent and in every way Christian Family Care is coming alongside of you to support you. We are not here to compete; but to complete your parenting. Wrap Around is much more than a transfer of information to you; we show you models for parenting through attachment trauma. From your Wrap Around sessions we will:

(1) Show you various methods that are effective for building a healthy, connected relationship with your child.

(2) Introduce you to trauma-informed parenting and direct you to resources from which you can build your expertise.

(3) Model for you how self-awareness and self-regulation skills are essential to helping your child to regulate.

(4) Systematically provide training in the Integrative Parenting model.

(5) Give you directions on how you can begin parenting your child towards resilience in their post-traumatized phase.

Serving Children and Families Since 1982

DR RODERICK LOGAN, DPTH, CFTP

I am your CFC Wrap-Around professional. You can expect me to arrive on time, begin on time, end on time, and always show you respect. I am aware that you and your family are presently in the midst of adjusting to your adoptive placement, and that your schedule and routines have already been greatly impacted. So, you can expect that I will do all that is within my power to cooperate with your limited availability and time constraints. In each of our sessions, I will seek to be sensitive to your needs and focus our time together on the agenda of encouraging, elevating, and equipping you to be a trauma-informed parent.
